

Extension: Rainfall in the APY Lands

Below is a choropleth map displaying rainfall data in 2025.

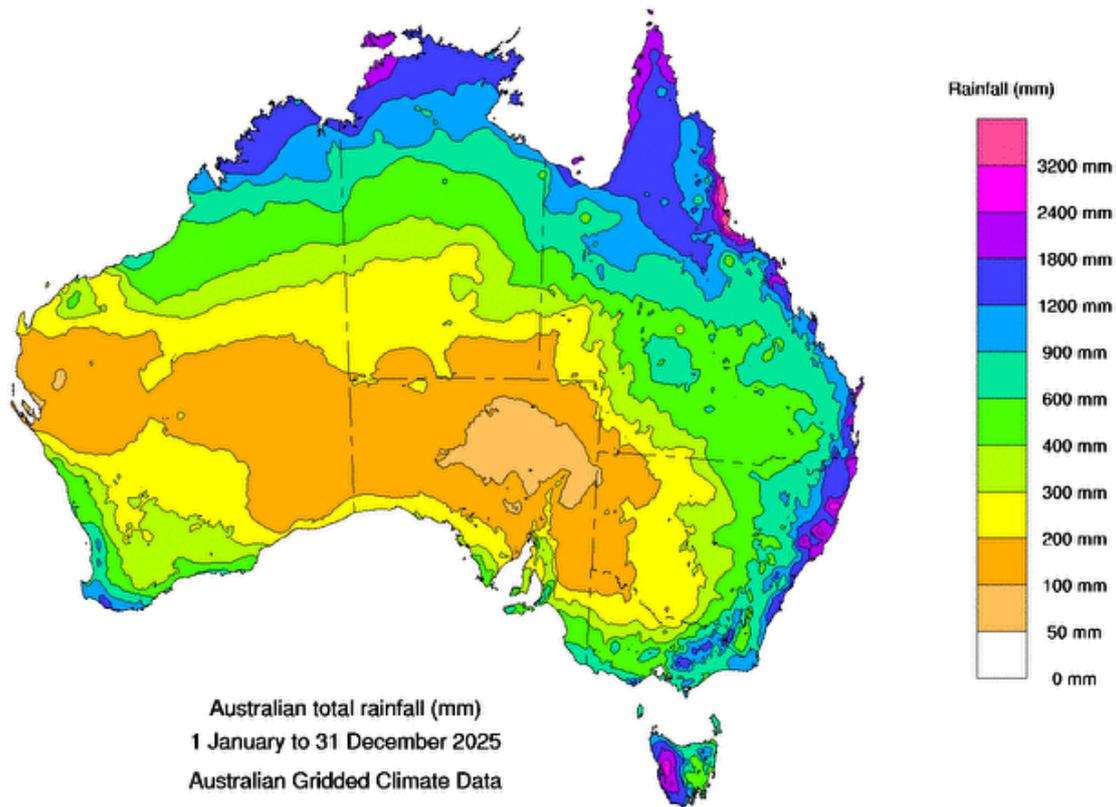

Image: Commonwealth of Australia 2025, Bureau of Meteorology

- 1 Draw an X on the map where your community is located
- 2 How many mm of rain did this region get in 2025?
- 3 Can you think of or identify a town in the driest part of the country?
- 4 What regions get the most rain?
- 5 Which state is the driest?
- 5 If you can access the rainfall map on the BOM website, change the period from 12 months to 48 months.
 - a. Does the average rainfall in your region change?
 - b. What does the change indicate?
- 6 Change the controls to select the year you were born.
 - a. What changes do you notice between that year and the current year?
