A sewer event is a blockage or overflow in our network and target response times vary depending on the type of event, with quick response times when it's urgent and longer response times when it's less urgent.

*Results for this measure are often impacted by circumstances outside our control such as site access, safety or customers requesting alternative clean-up times. The target would have been met year to date if not for such circumstances, therefore we consider this achieved based on best endeavours. While we continue to provide the best possible customer service, we are seeking better ways to report performance in this area for the next regulatory period starting in July 2024.

Flexible payments	As at quarter 3
Residential customers paying bills under a flexible payment plan	4,067
Non-residential customers paying bills under a flexible payment plan	78

To respond to customers unique circumstances, we handle payment arrangements on a case-by-case basis.

Concessions	As at quarter 3
Residential customers receiving a water concession	125,279
Residential customers receiving a sewerage concession	100,776

Concessions are managed by the Department of Human Services. Eligible government concession card holders may receive a water rate reduction. Once approved, we work with the Department to apply concessions. Customers who receive their concession directly from the Department are not included in our reporting.
